DETAILED ACTION

Response to RCE

Applicant's RCE filed on 7/28/2005 has been considered.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Information Disclosure Statement

The information disclosure statements (IDS) submitted on 2/27/2004; 12/20/2004; 7/28/2005; and 9/26/2005 have been considered by the examiner.

Allowable Subject Matter

Claims 1-38 are allowable.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to show or suggest the claimed an ahuja compensation circuit comprising, among other limitation, a novel and unobvious limitation of "first, second, and third capacitance, wherein a first end of said first capacitance communicate with the second terminal of said the first transistor, a first end of said second capacitance communicates with a first terminal of said second transistor, and a second end of said third capacitance communicates with said first terminal of said second transistor and a current minor circuit that receives said main bias" structurally and functionally interconnected with other limitations in the manner as cited in claims 2-12.

The following is an examiner's statement of reasons for allowance: Claims 13 and 26 are allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to show or suggest the claimed a feedback loop in an ahuja compensation circuit comprising, among other limitation, a novel and unobvious limitation of "a high swing cascode biasing circuit that communicates with a second end of said first capacitance and a control terminal of said first transistor and includes a current mirror circuit mirror circuit that receives said main bias" structurally and functionally interconnected with other limitations in the manner as cited in claims 14-25 and 27-38.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Cited References

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references relate to compensation circuits.
